

*International Scientific Forum "Gulf of Finland - natural dynamics and anthropogenic impact",
devoted to 50th Anniversary of Three - lateral Gulf of Finland Cooperation*

17-18 October 2018, St.Petersburg, Russia

(list open)

First circular letter

General information

Organizers:

A.P.Karpinsky Russian Geological Research Institute (VSEGEI) is a host institution of the Forum, which will be organized in collaboration with the Three - Lateral Gulf of Finland Expert group under the umbrella of Federal Agency on Mineral Resources of Russian Federation (Rosnedra).

Organizing Committee:

Co-chairs

Evgeny Kiselev (Vice-Head of Ministry of Nature Resources and Environment, Deputy Head of Rosnedra)

Oleg Petrov (Director General of VSEGEI)

Tarmo Soomere (Head of Estonian Academy of Science)

Lea Kauppi (Director of Finnish Environmental Centre - SYKE) Finland

Secretariat

Daria Ryabchuk (VSEGEI)

Ludmila Vessiko (SYKE)

Kai Myrberg (SYKE)

Vladimir Zhamoida (VSEGEI)

M.Raatoja (SYKE)

Members:

Ivan Serebritsky (Vice-Head of Committee on Environmental Protection and Natural Use)

Andrey Pedchenko (Director of State research Institute of Lakes and Rivers Fisheries, (GOSNIORCH))

Valeriy Mikcheev (Rector of Russian State Hydrometeorological University (RSHU))

Tatiana Eremina (Dean of Oceanological Faculty, RSHU)

Sergey Golubkov (Corresponding Member of RAS, President of Russian Hydrobiological Society)

Shamil Pozdnyakov (Director of Institute of Limnology RAS)

Alexander Antsulevich (Environmental manager for Russia, Nord Stream-2)

Evgeniy Petrov (Director of Center of marine geology, lithogeodynamics and metallogeny of sedimentary basins, VSEGEI)
Tatiana Zagrebina (North-West Administration for Hydrometeorology and Environmental Monitoring)
Oleg Korneev (Marine Geological Prospecting Subdivision of JSC "Rosgeo")
Aleksandr Rybalko (Vniioceangeologia)
Sergey Aysinov (Admiral Makarov State University of Maritime and Inland Shipping)
Vladimir Ryabchenko (P.P.Shirshov Institute of Oceanology RAS)

Scientific advisory board

HarriKuosa (Finnish Environment Institute (SYKE))
Inga Lips (Marine Systems Institute, Tallinn University of Technology)
Kirsi Kostamo (Finnish Environment Institute (SYKE))
Georg Martin (University of Tartu)
Aarno Kotilainen (Geological Survey of Finland)
Sten Suuroja (Geological Survey of Estonia)
Kari Lehtonen (Finnish Environment Institute (SYKE))
Mailis Laht (Estonian Environmental Research Centre)
Tapani Pakarinen (Natural Resources Institute Finland (LUKE))
Jorma Rytönen (Finnish Environment Institute (SYKE))
Tarmo Kõuts (Marine Systems Institute, Tallinn University of Technology)
Frank Hering (Centres for Economic Development, Transport and the Environment (ELY Centres))
Robert Aps (University of Tartu)
Henry Vallius (Geological Survey of Finland)
Markku Viitasalo (Finnish Environment Institute (SYKE))
Taavi Liblik (Marine Systems Institute, Tallinn University of Technology)
Heikki Pitkänen (Finnish Environment Institute (SYKE))
Urmas Lips (Marine Systems Institute, Tallinn University of Technology)

Important dates (deadlines)

April 23 – first circular letter

June 15 – second circular letter (information about abstract format)

July 15 – start of abstract submission and registration

September 15 – dead-line for of abstract submission and registration

October 1 – third circular letter, Conference Program

October 17-18 - International Scientific Forum "Gulf of Finland - natural dynamics and anthropogenic impact", devoted to 50th Anniversary of Three lateral Gulf of Finland Cooperation

Preliminary Scientific programme

Scientific sessions are designed to address a wide range of fundamental and interdisciplinary issues in marine geology of the Baltic Sea. Proposed sessions include:

- 1. Geo- and biodiversity of the Gulf of Finland: habitats and submarine landscapes mapping, environmental friendly exploration of natural resources, marine and coastal ecosystems conservation, large-scale projects and environmental responsibility.**
- 2. Environmental geology: hazardous geological processes, including anthropogenic geological hazards of the Gulf of Finland bottom and its coastal zones and climate change.**
- 3. Sedimentological and geochemical processes within the Gulf of Finland basins. Monitoring of hazardous substances in ecosystems.**

4. Impacts of changing climate and human-induced pressures on the Gulf of Finland ecosystem

5. (list open)

Venue

The Conference will take place at A.P. Karpinsky Russian Geological Research Institute (VSEGEI), located at the Vasilievsky Island, close to the historical centre of St. Petersburg.

A.P. Karpinsky Russian Geological Research Institute

Russia, St.Petersburg, Sredny pr. 74

Phone: + 7 812321 5706

Fax: + 7 812 321 3023

Language

The official language of the conference will be English.

Hotel:

Small modern comfortable hotel in the in the historic part of the city is located at: 74 Sredny Prospect, St. Petersburg, Russia.

The nearest metro station is – «Vasileostrovskaya»

Tel.: (812) 328-90-43, tel./fax: (812) 321-93-15

E-mail: hotel_vsegei@mail.ru

Most rooms at the hotel consist of a bedroom and a living room; suits have a study in addition (room size from 40 to 70 m²). A cozy cafe is on the ground floor. Breakfast is included.

Rooms are equipped with appliances (TV, WI-FI, refrigerator, telephone, tea kettle and tea ware), with modern bath fitment. 24-hour guarding is provided; parking area.

Room	Single (40 m ²)	Single (70 m ²)	Double (70 m ²)
Cost in roubles per night	3800	4200	4800
Cost in euro (course April 3) per night	54	60	68
